Enter your Phone
Number or your
Username.

A screenshot of a mobile application interface for 'Find.MyKid'. The app has a teal background. At the top, there is a blue oval containing a white checkmark and the text 'Find.MyKid' in a black, monospaced font. Below this, there are two light blue rounded rectangular input fields. The first field contains the placeholder text 'Username/phone no.' and the second field contains 'Your kid's number'. The entire app interface is set against a light gray background that resembles a smartphone frame.

Username/phone no.

Your kid's number

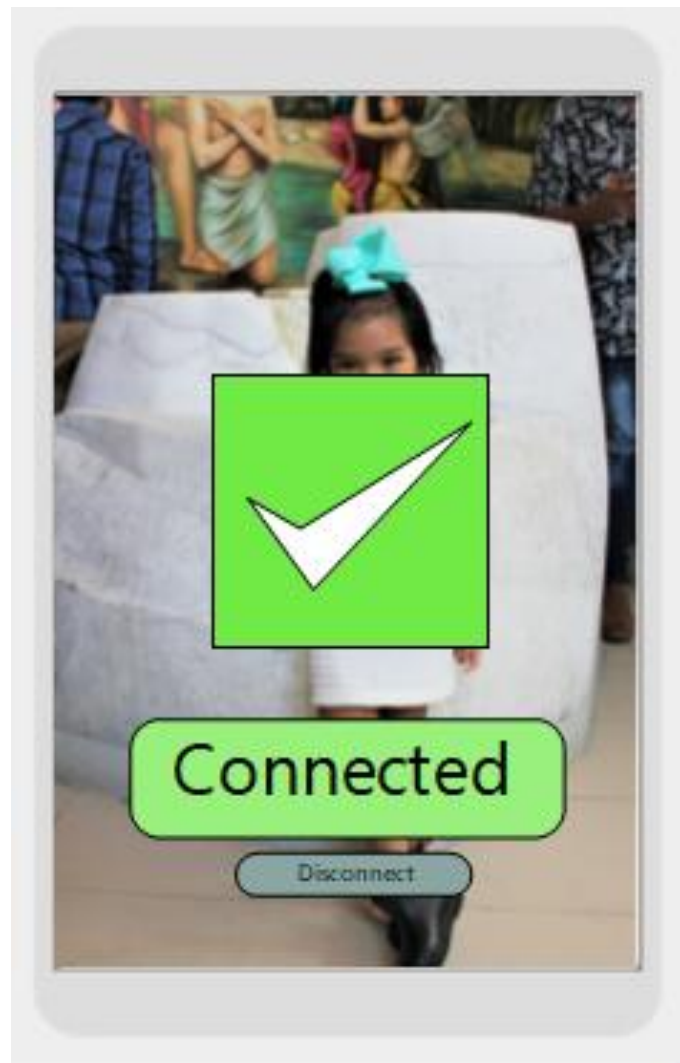

Enter your kid's
Phone number.
For tracking.

While not yet
Connected
The parent can
Message his/her
Kid via this app.

Here can he/she can
Type.

If his/her kid accept+
The dial for their
Connection.

This is what you can see of the kids phone.

If the kid
decline the
call

It will notice
its parents.

If the kid
Accept the
Confirmation
It will allow
His/her mom
To see its recent location.

After accepting the confirmation this will going to appear on the screen for the parent and same sa the kid's phone.
